Professional Summary

Resourceful DevOps Engineer and Cloud Architect with 4 years of experience designing, implementing, and managing secure AWS cloud infrastructure. Proven ability to develop scalable microservices, optimize Linux servers, and configure robust CI/CD pipelines using Jenkins and AWS services. Expertise in infrastructure automation, monitoring, and disaster recovery. Seeking to leverage comprehensive cloud and system administration skills to enhance operational efficiency and drive innovation at your organization.

Core Competencies

Kubernetes • Docker • Terraform • Infrastructure as Code (IaC) • CI/CD Pipelines • Jenkins • GitHub Actions • AWS • GCP • Linux Administration • GitOps • ArgoCD • Ansible • Cloud Security • Platform Engineering • Site Reliability Engineering (SRE) • Monitoring & Logging • Bash Scripting • Python • Networking • Disaster Recovery • Infrastructure Automation • Nginx • Apache • Load Balancing • DNS • NAT Gateway • Multi-Cloud • Security Groups • Ubuntu • Internet Gateway • Subnets • DynamoDB

Technical Skills

Cloud Platforms: AWS (EC2, VPC, IAM, S3, Lambda, RDS, CloudFront, EKS, CloudWatch, Route 53), GCP (Cloud Functions, Cloud Run, Load Balancer, VPC)

Containers & Orchestration: Kubernetes, Docker, Helm, Kubernetes Networking, Containerized Applications

Infrastructure as Code: Terraform, AWS CloudFormation

GitOps & Automation: ArgoCD, Ansible

CI/CD Tools: Jenkins, GitHub Actions, AWS CodePipeline, AWS CodeBuild, AWS CodeDeploy

Operating Systems: Ubuntu, Amazon Linux, CentOS

Monitoring & Logging: CloudWatch, CloudTrail, AWS X-Ray, Log Monitoring

Networking: TCP/IP, DNS, VPC, Routing, Switching, VPN, Load Balancers, Security Groups, Network ACLs, Subnets

Programming & Scripting: Python, Bash

Security: IAM, Secrets Manager, KMS, SSL/TLS, Access Control, Cloud Security Best Practices

Version Control: Git, GitHub

Professional Experience

DevOps Engineer / Cloud Engineer June 2022 – Feb 2026
SMSAMI Inc., Peshawar, Pakistan

- Architected and deployed scalable serverless microservices leveraging AWS Lambda and API Gateway.
- Engineered and sustained secure AWS cloud infrastructure, incorporating EC2, VPC, S3, RDS, and CloudFront.
- Administered Linux servers (Ubuntu, Amazon Linux, CentOS), encompassing system configuration, patch management, user administration, and issue resolution.

- Configured and fine-tuned Apache and Nginx web servers, including reverse proxy implementation, SSL/TLS setup, and performance optimization.
- Instituted CI/CD pipelines utilizing Jenkins and AWS CodePipeline to automate application deployments and streamline operational workflows.
- Managed AWS Organizations and implemented AWS IAM Identity Center (SSO) across multiple accounts for centralized access control.
- Designed highly available and fault-tolerant architectures across multiple AWS regions to ensure robust disaster recovery capabilities.
- Established comprehensive monitoring, logging, and tracing using CloudWatch, CloudTrail, and AWS X-Ray for proactive issue detection and resolution in production environments.
- Automated infrastructure provisioning and configuration using AWS CloudFormation and Terraform, reducing deployment effort and improving infrastructure consistency.
- Executed Linux server hardening, system performance monitoring, log analysis, and ongoing optimization initiatives.
- Facilitated the migration of legacy applications and websites to WordPress and cloud-native architectures.

Network Engineer Intern Feb 2022 – May 2022
Evamp & Saanga, Islamabad, Pakistan

- Supported the setup, configuration, and virtualization of Linux servers.
- Monitored server logs, system performance metrics, and network infrastructure health .
- Contributed to the troubleshooting of networking and cloud infrastructure challenges.
- Acquired practical experience with networking protocols, infrastructure deployment methodologies, and microservices architecture patterns.

Education

Bachelor of Computer Science Sep 2017 – Feb 2022
University of Peshawar, Peshawar, Pakistan

Higher Secondary School Certificate Sep 2015 – June 2017
Islamia College Peshawar, Peshawar, Pakistan

Certifications

- AWS Solutions Architect Associate – Training (Udemy)
- Master Cloud-Native Infrastructure with Kubernetes – LinkedIn Learning
- Cloud Technical Support – Coursera
- Agile Scrum Fundamentals – Coursera
- The Bits and Bytes of Computer Networking – Coursera

Languages

- English – Professional Working Proficiency
- Pashto – Native
- Urdu – Native
